WIO 2021
SUMMER SYMPOSIUM
AUGUST 26–29
AMELIA ISLAND, FLORIDA

Program

WWW.WIOONLINE.ORG  @WIOONLINE  @WIO_WOMENINOPHT
Women in Ophthalmology (WIO) was founded to enhance and improve the professional environment for women ophthalmologists. WIO encourages diversity, impartiality, economic parity, and strives to cultivate new opportunities for leadership, education and public service in the field of ophthalmology for ourselves and future generations.

What started as a lunch meeting at the American Academy of Ophthalmology (AAO) has grown to an internationally recognized organization, an affiliate society of the AAO, which provides scientific/medical education and professional development resources for women in ophthalmology. WIO recognizes the many facets to being a female ophthalmologist and provides training, services and benefits to meet all of those needs.

Women in Ophthalmology
655 Beach Street

Development Director
Wanda Martinez, MD
Membership Director
Carol Ziel, MD
AAO Councilor

Directors:
Lindsey De Andrade, MD
Gloria Fleming, MD
Femida Kherani, MD
Lejla Vajzovic, MD
Christina Weng, MD
Kimberly Winges, MD
One year ago, when the planning for this meeting commenced, things were very different. We lived in a masked, and mostly shut-down world. All our interactions were virtual. For physicians, zoom or a similar platform had become a near constant in everyday life from faculty meetings to patient care.

One year ago (and two, when I agreed to plan this meeting), I was also not pregnant.

Clearly (blessedly) things have changed. As physicians we celebrate and promote science and we celebrated indeed in late December when the first vaccines rolled out to hospitals across the nation.

But even in February when speaker invites were sent, nearly 50% of those invited said they expected that they could not attend in person and requested a virtual option. It was clear that the future and platform of conferences going forward was going to be different.

Thus, we introduce the first hybrid in-person and virtual Women In Ophthalmology Annual Summer Symposium. This allows us to share clinical and scientific advancement in ophthalmology along with wellness, diversity and equity initiatives, and WIO’s got talent with the broadest possible audience to date. In exciting news, it appears that this meeting in Florida will not only have the broadest reach but will also be the largest in-person meeting to date. This underscores the impact and importance of WIO—as the world opens, we are flocking to WIO!

This year we are – almost literally – breaking the glass ceiling. From our keynote addresses to our panels and breakouts, to our focus on physician wellness and equity especially in contract negotiation, to talks on fertility, pelvic health workshops and ‘cocktails and catching up’ - we present a very quintessentially WIO (hybrid) meeting.

I’d like to thank the WIO Board, CEO Lisa Nijm, Past President Erin Shriver, President Regine Pappas and President-Elect Sue Burden for their support and dedication to the overarching WIO vision. Thank you to all the in person and virtual speakers for sharing their work with the broader WIO community. Huge kudos to the dedicated and dynamic symposium committee; I could not have planned this meeting without all your ideas, your swag bag contributions, and your support. Thank you to the sponsors for joining the in-person meeting in Florida. And a million thanks to the executive team, especially Amber Mendez and Alissa Evans, for working tirelessly, and at all kinds of off hours, to make this an amazing in-person and virtual meeting.

I wish I could be in Florida with you all but at that point I should have a few days old infant to care for. I can now definitively say it takes longer to plan and execute the WIO symposium than to grow a brand-new human (!). In so many ways it is fitting: this is what we, the women in ophthalmology do, we juggle our family and work commitments, we show up and promote our passions, and together with WIO, we support and promote each other.

On behalf, of the WIO 2021 Summer Symposium Committee, I wish you a wonderful meeting whether you’re joining from home or from Florida. Enjoy!

With love,

Jesse Berry, MD

Meeting Information

Registration Hours
- Thursday: 3:00 pm – 7:30 pm
- Friday: 5:30 am – 5:30 pm
- Saturday: 5:30 am – 5:30 pm
- Sunday: 5:30 am – 11:30 am

Badges
WIO name badges should be worn during all sessions and social events. Replacement badges can be obtained at the registration desk.

Meeting Attire
Business casual or resort attire is encouraged for the duration of the meeting, and cocktail attire is appropriate for the gala dinner. Sweaters or light jackets are recommended as it can be difficult to regulate temperature favorable to all.

Meals and Refreshments
Refreshment breaks, receptions, and meals provide continued networking occasions. This meeting offers the following opportunities for registered attendees:

Mornings and Afternoons
Breakfast and lunch CME sessions on Friday and Saturday and the Breakfast with the Experts session on Sunday offer meals for registered physicians only. Refreshment breaks are offered Friday and Saturday morning and afternoons for all registered attendees.

Evenings
Dinner will be offered at the Thursday evening CME session for registered physicians only. This will be followed by the Opening Reception, which is open to all attendees and guests, where we will kick off the meeting with a champagne toast. New for 2021, Friday evening will feature the Clinical Trials Training Program reception for registered physicians. The Dine Around on Friday evening offers a self-organized expanded networking opportunity. This is a wonderful way to make new friends and experience local restaurants. The resort also offers a variety of on-property dining options. We encourage you to make reservations early. Saturday night is a special evening for recognition, reflection, and merriment with our Cocktail Reception and Gala Dinner where you’ll be served a delicious plated dinner. If you submitted special dietary requests, they have been noted. Onsite requests will be accommodated if possible but are not guaranteed. Check out the menu posted on the WIO message board. Suggested attire is semi-formal. Be ready to dance the night away after dinner for our Get Up and Dance party.

Personal Guest Hospitality Lounge
Continental breakfast will be available for registered spouses and guests Friday, Saturday, and Sunday. Check the schedule for times and locations.

Speaker Ready Location
Presenters must submit final PowerPoint to the audiovisual staff no less than 2 hours prior to their presentation. Audiovisual staff will be located at the rear of the Ritz Carlton ballroom to assist you.

Exhibits
Mingle with manufacturers, distributors, and suppliers of products in the field of ophthalmology. Play Exhibitor Bingo by collecting stamps from our exhibiting supporters on the game card located in your attendee bag. Drop the card off at the Registration Desk by 4:00 pm on Friday and Saturday to be entered in the raffle drawings. Great prizes are in store for the raffle winners who will be announced during the Pool Networking sessions and during the Saturday evening Gala.

Exhibit Hours
- Friday: 7:00 am – 3:30 pm
- Saturday: 7:00 am – 3:30 pm

Breakfast with Experts
Pick a topic and join in lively discussion over breakfast. Walk away with pearls and solutions for topics ranging from practical to personal.

Skill Labs
Hone your skills or try something new with a surgical wet lab. Check the WIO message board to confirm advance sign-ups and remaining availability.

- Friday: 1:30 pm – 3:00 pm
  - SKILL LAB 1: Dry Eye Wetlab
  - SKILL LAB 2: Glaucoma – MIGS, SHUNTS, Oh My!
- Saturday: 1:30 pm – 3:00 pm
  - SKILL LAB 3: Basic Phacoemulsification Lab
  - SKILL LAB 4: Strabismus

Live Well Sessions
Take time for yourself! Energize and restore with a morning and/or afternoon Live Well session:

- Friday: 6:00 am – 7:00 am
  - Yoga and Mindfulness
- Friday: 4:00 pm – 5:30 pm
  - Watercolor Painting Class
- Saturday: 6:00 am – 6:30 am
  - Setting Your Intentions for the Day / Mindfulness
Meeting Information

Live Well Sessions (continued)

- **Saturday**
  - 6:00 am – 7:00 am: Water Aerobics
  - 6:45 am – 7:45 am: Turtle Walk (separate registration required)
  - 3:30 pm – 4:30 pm: How to Solve Any Problem
- **Sunday**
  - 6:45 am – 7:45 am: Turtle Walk (separate registration required)

Pool Networking

Enjoy a private shaded terrace at the pool and network with fellow WIO attendees. Dedicated WIO Pool Networking hours are:

- **Friday**
  - 4:00 pm – 5:00 pm
- **Saturday**
  - 4:00 pm – 5:00 pm

Mothers' Room

A Mother’s Room is available for the duration of the meeting. Please check in at the registration desk for access to this private space.

Photographing, Social Media and Recording of Exhibits, Posters and Presentations

WIO’s policy for the use of photography and social media aims to balance the needs between presenters, patients, and advocates for the latest information and the needs of presenters to protect their proprietary information from unauthorized use. As a presenter, if you do not wish to have your slides shared on social media or photographed, please verbally make a statement and provide a written slide in your presentation. Unless otherwise stated, non-flash photography is allowed for personal, social, and non-commercial use. Please respect presenters who state they do not want their slides and/or content photographed or shared on social media. Attendees taking photos must do so in a non-disruptive manner so as not to disturb the presenter and other attendees. Slides with patient faces or other identifiable information cannot be shared on social media due to HIPAA regulations. Video recording, live audio and/or video streaming is strictly prohibited. Failure to comply with this policy may result in being removed from the session and/or meeting.

Wi-Fi Internet Access

Wi-Fi internet access is available in the meeting areas. Check signage for network and password access.

Questions?

If you have questions regarding WIO or the Summer Symposium, please stop by the WIO Registration Desk during registration hours for staff assistance.

Display or Distribution of Materials

WIO has retained use of The Ritz-Carlton, Amelia Island to enable registered members and guests to participate in Society sponsored educational and informational activities. Display or distribution of non-sponsored information or advertising in or on the property, except at exhibit tables and on the WIO notice board, is prohibited. Violation of this policy may result in confiscation and disposal of the material.
CME Information

In support of improving patient care, this activity has been planned and implemented by Medical Education Resources (MER and Women in Ophthalmology (WIO). MER is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Target Audience
This activity has been designed to meet the educational needs of ophthalmologists and trainees who are involved in clinical or surgical eye care, academic, leadership, research, and/or administration.

Program Overview
The Summer Symposium provides solid scientific and practice management information to clinicians, researchers, and other professionals in the field. The conference has become the apex of WIO’s annual activities for its unique blend of medical education and leadership training. The event increases speaking opportunities for women, provides a comfortable woman-to-woman learning environment for the latest scientific breakthroughs, and fosters relationships between women from diverse backgrounds, professional environments, and life experiences.

2021 Educational Objectives
- Describe, compare, and evaluate the best diagnostic and treatment options for important disease states in ophthalmology.
- Identify and evaluate how best to incorporate new surgical techniques into their practice, manage their surgical practice efficiently, create the high-quality surgical videos to improve their skills and educate others, and address surgical complications.
- Assess why diversity matters in medicine and ophthalmology for optimal patient care and how to grow diversity in individual practice settings.
- Identify and apply current research findings to improve patient care.
- Implement key practice management skills such as medical staff training, enhancing patient’s experience, and improving online communication to improve patient care.
- Identify strategies for effective work-life integration and how to improve physician well-being.
- Apply necessary professional development skills such as negotiation, communication, and leading crucial conversations for career growth.
- Address the unique challenges of academic medicine, private practice, and large multispecialty groups.

Faculty and Program Agenda
A complete program and list of faculty, along with their financial disclosures and biographies, is published online in this program Book and in the virtual platform.

Physician Credit – Live Meeting (Includes Virtual Access)
Medical Education Resources designates this live activity for a maximum of 24 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Physician Credit – Virtual Meeting
Medical Education Resources designates this live activity for a maximum of 17.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure of Conflicts of Interest
It is the policy of Medical Education Resources to ensure balance, independence, objectivity, and scientific rigor in all of its educational activities. In accordance with this policy, MER identifies conflicts of interest with its instructors, content managers, and other individuals who are in a position to control the content of an activity. Conflicts are resolved by MER to ensure that all scientific research referred to, reported, or used in a continuing education activity conforms to the generally accepted standards of experimental design, data collection, and analysis.

CME credits
Claim your CME credits online by November 1, 2021.

The authors have disclosed if there is any discussion of published and/or investigational uses of agents that are not indicated by the FDA in their presentations. Before prescribing any medicine, primary references and full prescribing information should be consulted. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested in this activity should not be used by clinicians without evaluation of their patient’s conditions and possible contradictions on dangers in use, review of any applicable manufacturer’s product information, and comparison with recommendations of other authorities. The information presented in this activity is not meant to serve as a guideline for patient management.
Award Recipients

Bernice Z. Brown Memorial Lecture Award
FRIDAY, AUGUST 27, 11:15 am – 11:55 am

Given by the WIO Board of Directors to a WIO member in honor of Dr. Bernice Brown, recipients have contributed to the profession of ophthalmology and to the advancement of women in the profession. The honoree is asked to speak about her life, accomplishments and overcoming obstacles in her profession, offering inspiring real-life stories of professional growth and success in the practice of ophthalmology.

ADRIENNE GRAVES, PHD

Dr. Adrienne Graves is a visual scientist by training and a global industry leader in ophthalmology. As the former CEO of Santen Inc., the US subsidiary of a 130 year old Japanese pharmaceutical company, she successfully established a strong global presence, brought multiple ophthalmic products through development to approval and commercialization, and led global teams through successful acquisitions and partnerships. At Santen, Dr. Graves served as Sr. VP of Worldwide Clinical Development (US, Europe, and Japan) for 7 years and CEO for 8 years. Prior to Santen, she spent 9 years at Alcon, joining as Sr. Scientist to establish Alcon’s first Retinal Electrophysiology Laboratory. She progressed through roles of increasing responsibility in R&D, including directing clinical development in multiple therapeutic areas and serving as Director of International Ophthalmology.

Dr. Graves co-founded Glaucoma 360 and OWL (Ophthalmic World Leaders, formerly Ophthalmic Women Leaders). Her recent honors include the Visionary Award from Foundation Fighting Blindness, the Catalyst Award from Glaucoma Research Foundation, and the Visionary Award from OWL. She recently appeared on the Ophthalmologist 2021 Power List.

Dr. Graves received an AB with Honors in Psychology from Brown University, a Ph.D. in Psychobiology/Neuroscience from the University of Michigan, and she completed a Postdoctoral Fellowship in Visual Neuroscience at the University of Paris. She is a Visionary Innovation Mentor at the Ophthalmic Innovation Program at Stanford University.
Award Recipients

Honorary Lecture Award

SATURDAY, AUGUST 28, 8:00 AM – 8:40 AM

This award is given by the President of WIO to honor an individual who is a leader in ophthalmology and who has contributed to the profession as an educator, researcher, or humanitarian. The awardee is invited to speak about their research, education, or humanitarian efforts.

Leslie S. Jones, MD

Dr. Jones is Associate Professor and Chair of the Department of Ophthalmology at Howard University. She graduated with a B.A. from University of Virginia and M.D. from Howard University. After completing a residency in ophthalmology at Howard University Hospital, she pursued fellowship training in glaucoma at Wills Eye Hospital. She has demonstrated a commitment to vision research as a Howard Hughes Medical Institute fellow at the National Eye Institute and is currently the glaucoma consultant for the Uveitis Section of the NEI. Dr. Jones is a past recipient of the American Glaucoma Society Clinician-Scientist Award and is committed to patient education and early detection of glaucomatous optic neuropathy. Her research focuses on the genetic epidemiology of glaucoma, the evaluation of current and innovative glaucoma medical and surgical therapies and use of simulation as an adjunct to traditional ophthalmic clinical skills training. Dr. Jones is dedicated to academic medicine with the goal of passing on the values which are most important in assuring that the next generation will provide excellent patient care. Chief among those is a commitment to saving sight and preserving the overall health and wellbeing of the individuals we treat. She is most proud of the doctors that she has trained knowing that her commitment to patients is magnified through her commitment to teaching and mentoring our future ophthalmologists.

International service-learning experiences have significantly contributed to her own development and method of teaching adaptability, perseverance, and resilience. Dr. Jones has volunteered internationally with over 20 ophthalmology missions to Lascahobas and other rural Haitian communities as well as several regions of Nigeria. She always sponsors resident and medical student participation in these unique opportunities. Her activities on a local level mirror this commitment to community eye health and to her trainee's maturation. She helps the Howard University Department of Ophthalmology uphold its mission to serve through conducting vision and glaucoma screenings throughout the nation’s capital.

Dr. Jones is a long-serving member of the Washington DC Metropolitan Ophthalmologic Society. Through her society’s nomination she participated in the 2003 class of the AAO Leadership Development Program and subsequently served for five years on the AAO Young Ophthalmologist Committee. Through YO sponsorship, she conducted annual courses on Pitfalls of the Young Academician and Work Life Balance. She has stated “I don’t believe in balance, but I do believe in living life on your own terms and redefining those terms as your priorities and your interest evolve.” She is the recipient of the AAO Senior Achievement Award and is the current councilor for the Washington DC Metropolitan Ophthalmologic Society.

Dr. Jones was the Wills Eye Hospital Glaucoma Service 50th Anniversary Honoree in 2013 and was the 2014 recipient of the WIO Humanitarian Award. She received the 2017 Year of Women Award during the WIO reception at the AAO annual meeting. She credits the WIO as the best professional network for current and aspiring ophthalmologists. Through her work with her state specialty society, the AAO, and WIO, she has enjoyed imparting what she has learned to friends and in turn seeking out their advice.
CME Spotlight Sessions*

**THURSDAY, AUGUST 26, 6:15 pm – 7:30 pm**
Innovative Treatment Protocols that can Redefine the Management of nAMD and DR

Judy E. Kim, MD (ACTIVITY CHAIR)
Professor, Ophthalmology and Visual Sciences
Professor, Graduate School of Biomedical Sciences
Director, Teleophthalmology and Research
Medical College of Wisconsin, Milwaukee, WI

Sophie J. Bakri, MD
Professor of Ophthalmology
Mayo Clinic, Rochester, MN

**LEARNING OBJECTIVES:** Evaluate the evidence from clinical trials on the effectiveness of different treatment regimens in diabetic retinopathy (DR) and age-related macular degeneration (AMD). Recognize the role of subretinal and intraretinal fluid on the outcomes of treatment in patients with AMD.

**TARGET AUDIENCE:** The intended audience for this activity is ophthalmologists, retina specialists, and other health care professionals involved in the management of patients with age-related macular degeneration or diabetic retinopathy.

**PROVIDER STATEMENT:** This continuing medical education activity is provided by Vindico Medical Education.

**SUPPORTER STATEMENT:** This activity is supported by an independent medical education grant from Regeneron Pharmaceuticals, Inc.

**FRIDAY, AUGUST 27, 12:15 pm – 1:30 pm**
Mitigating Thyroid Eye Disease through Prompt Diagnosis and Treatment

Sara Tullis Wexer, MD, FACS (ACTIVITY CHAIR)
Professor of Clinical Ophthalmology
Oculofacial Plastic and Reconstructive Surgery
Orbital Surgery and Oncology
Bascom Palmer Eye Institute
University of Miami Miller School of Medicine, Miami, FL

Andrea Lora Kossler, MD, FACS
Director, Oculofacial Plastic & Orbital Surgery
Assistant Professor of Ophthalmology
Stanford University School of Medicine, Palo Alto, CA

**LEARNING OBJECTIVES:** Review risk factors and classification criteria that aide in the differential diagnosis of thyroid eye disease. Examine the use of conventional and new treatments for their ability to improve the overall treatment of thyroid eye disease.

**TARGET AUDIENCE:** The intended audience for this activity is ophthalmologists and other health care professionals involved in the management of patients with thyroid eye disease.

**PROVIDER STATEMENT:** This continuing medical education activity is provided by Vindico Medical Education.

**SUPPORTER STATEMENT:** This activity is supported by an educational grant from Horizon Therapeutics USA, Inc.

**FRIDAY, AUGUST 27, 6:45 AM – 8:00 AM**
Presbyopia: Emerging Treatments Offer New Hope For the Aging Eye

Lisa M. Nijm, MD, JD (ACTIVITY CHAIR)
Founder, MDNegotiation.com
Founder, RealWorldOphthalmology.com
CEO, Women in Ophthalmology
Founder and Medical Director, Warrenville EyeCare and LASIK
Assistant Clinical Professor of Ophthalmology, University of Illinois Eye and Ear Infirmary, Chicago, IL

Jennifer M. Loh MD
Founder, Loh Ophthalmology Associates
Board Member, Eye Physicians of Florida, LLP, Miami, FL

**LEARNING OBJECTIVES:** Describe the benefits, limitations, and risks of current therapeutic options for the treatment of presbyopia. Evaluate the efficacy and safety of emerging medical approaches for the treatment of presbyopia that may improve outcomes and patient satisfaction.

**TARGET AUDIENCE:** The intended audience for the activities is ophthalmologists and other health care professionals involved in the management of patients with presbyopia.

**PROVIDER STATEMENT:** This continuing medical education activity is provided by Vindico Medical Education. Supporter Statement: This activity is supported by an educational grant from AbbVie Inc.

**SATURDAY, AUGUST 28, 12:15 pm – 1:30 pm**
Futuristic Approaches That Reduce Treatment Burden in AMD and DME

Caroline Bauman, MD (ACTIVITY CHAIR)
Professor of Ophthalmology, New England Eye Center
Tufts University School of Medicine, Boston, MA

Christina Y. Weng, MD, MBA
Associate Professor of Ophthalmology
Fellowship Program Director, Vitreoretinal Diseases & Surgery
Baylor College of Medicine, Houston, TX

**LEARNING OBJECTIVES:** Describe the mechanisms behind emerging delivery systems being studied for the treatment of age-related macular degeneration (AMD) and diabetic macular edema (DME). Assess new evidence about new therapeutics that can lengthen the time between anti-vascular endothelial growth factor treatments for patients with AMD or DME.

**TARGET AUDIENCE:** The intended audience for this activity is ophthalmologists, retina specialists, and other health care professionals involved in the management of patients with age-related macular degeneration and diabetic macular edema.

**PROVIDER STATEMENT:** This continuing medical education activity is provided by Vindico Medical Education.

**SUPPORTER STATEMENT:** This activity is supported by an educational grant from Genentech, a member of the Roche Group.

On-Demand Virtual Content

POSTERS ABSTRACTS
From rare cases to impactful research to quality improvement, WIOs posters have it all. Learn from your colleagues and applaud the exciting work being done by the WIO in our on-demand poster session.

SURGICAL VIDEOS
WIO’s surgical prowess is unlimited. From IOLs to baerveldts to foreign bodies, the surgical video section has it all.

“LIFE HACK” VIDEOS
As busy career women, WIO is all about supporting and enhancing productivity in and out of work. Our life hacks section is just that—the very best tips and tricks from your colleagues. You’ll want to watch them all!

OMIC: DOCUMENTATION STRATEGIES TO MANAGE RISK
Laura Fine, MD and Michelle Pineda, MBA
The importance of documentation is underscored in this OMIC Risk Management course. Using actual OMIC closed claims, we hope to illustrate where the lack of documentation or incomplete documentation negatively impacted the defense of the claim. Recommendations on documentation are also provided to mitigate future liability risk. WIO Members who attend this risk management session can earn a 10% discount on their OMIC insurance premium.

Objectives:
• Identify the role of documentation plays in patient safety and defense of medical malpractice claims.
• Identify the elements of documentation in diagnostic/preoperative care, informed consent, inter-operative and post-operative care.
• Identify risk management resources available to prevent patient harm and mitigate medical malpractice claims.

LIVE WELL - WELLNESS WORKOUTS
Allison Early, MD
Join us for a series of hand-picked workouts over the course of the weekend to keep your mind and body in tune! We have created a schedule of on-demand workout classes including some favorite Peloton rides, stretches, run/walks, meditations, and even some yoga classes that are available to all on YouTube. Take part at the scheduled time to join along with other WIOs, or complete the suggested courses on your own time for a little refresh whenever you need it!

LIVE WELL - CULINARY SKILL LABS
• Cocktails – Audina Berrocal, MD
  BARrocal! Join me to prepare one of my favorite cocktails! At the end of a hard week at work, there is nothing better than sharing a cocktail with your significant other. It is the perfect time to decompress and share the trials and tribulations of our lives! I will show you how to make a simple yet flavorful cocktail!
• Charcuterie Board – Regine Pappas, MD
  Making a charcuterie board is a perfect way to keep your guests entertained and awed with the presentation and variety of appetizers while waiting for the main meal. Learn how to WOW your guests with a perfect board for any occasion.
• Meal Prep & Dinner – Shanika Esparaz, MD
  Who loves to meal prep? Join Dr. Shanika Esparaz, mother of two toddler girls and married to a physician as well, as she talks about her meal prep tips and tricks. No equipment needed for this video, just sit back, relax, and enjoy a surgeon mom’s version of the cooking channel. We will be making a lunch dish (toddler friendly), a dinner the whole family can enjoy, as well as a filling protein snack!
Breakfast with the Experts

**SUNDAY, AUGUST 29, 7:00 am – 8:00 am, Ritz-Carlton Ballroom**

Pick a topic and join in lively discussion over breakfast. Walk away with pearls and solutions for clinical practice, practice management, professional development or work-life balance.

MARIA AARON, MD

Dr. Maria Aaron is currently the Associate Dean of Graduate Medical Education and Designated Institutional Official. She is Professor of Ophthalmology at Emory University School of Medicine and is Secretary of the Annual Meeting for the American Academy of Ophthalmology. She graduated Magna Cum Laude from Vanderbilt University and earned her medical degree from Vanderbilt University School of Medicine. She then moved to Atlanta where she completed her residency in Ophthalmology at Emory University School of Medicine. Upon completion of her residency Dr. Aaron was appointed a faculty position in Comprehensive Ophthalmology.

USIWOMA ABUGO, MD

Dr. Abugo currently practices Orbital and Facial Cosmetic Surgery in Virginia and is on faculty at Eastern Virginia Medical School. Through her journey to this point in her career she has never been able to forget her mentors. Because of this, Dr. Abugo has created an active social media mentoring platform under @MentorMeMD where she mentors many healthcare professionals. Through the AAO/AUPO/MOM program she avidly mentors the next generation. Dr. Abugo has guided trainees of all levels who have dreams for excellence in medicine. In ophthalmology. Dr. Abugo has served on various program committees for WIO, NMA, and AAO. It is an honor to be the co-chair for WIO 2020.

ZAINA AL-MOHTASEB, MD

Zaina Al-Mohtaseb, M.D. is an associate professor of ophthalmology specializing in cornea, cataract and refractive surgery. She completed her ophthalmology residency at Baylor College of Medicine and was elected Chief Resident. She finished her training at the University of Miami’s Bascom Palmer Eye Institute with a fellowship in cornea/external disease, cataract & refractive surgery. She has authored 40 peer reviewed scientific publications and presents at multiple conferences. She enjoys education and is currently the associate residency director at BCM and the incoming chair of the ASCRS Young Eye Surgeon committee. She loves spending time with her husband, two kids, and parents.

JANET ALEXANDER, MD

Dr. Janet Alexander is a pediatric ophthalmologist with a research focus on cataracts and glaucoma in children, key causes of treatable childhood blindness worldwide. Novel technology and imaging applications are two areas with potential to enhance our capabilities for pediatric anterior segment disease. Quantitative ultrasound biomicroscopy is a specialized tool that can help clinicians overcome diagnostic challenges and assist in surgical planning. Imaging to inform novel surgical approaches has resulted in successful management of surgically challenging diseases ranging from pediatric glaucoma to cataract secondary to uveitis.

HEBA ALTARAWNEH, MD

Heba is a postdoctoral research fellow at Weill Cornell Medicine-Qatar (WCM-Q) and has been investigating the role of optical coherence tomography as a surrogate marker for axonal degeneration in multiple sclerosis patients. She holds an MD from WCM-Q.

JELLA AN, MD, MBA

Jella An, MD, MBA is the Medical Director at Mason Eye Institute East, Glaucoma Division and Fellowship Director and Assistant Professor of Ophthalmology at the University of Missouri, Medical Director and Vice-Chair of Clinical Practice at Wilmer Eye Institute, and Associate Professor of Ophthalmology at John’s Hopkins Medicine. As a full-time glaucoma specialist at an academic center, she has combined her active surgical practice with her research interests in MIGS.
Participant Biographies

Tori Arens, MS

Tori Arens is an accomplished, results-oriented operations professional with a 23-year track record of motivating and leading highly successful technical and operational teams in the biopharmaceutical industry. She began her career as a bench-level Scientist at Eisai Inc. and advanced through positions of increasing responsibility at Biogen before joining Aerie Pharmaceuticals in 2017. She currently heads Aerie’s Drug Product Manufacturing and Supply Chain teams, overseeing production of Rhopressa, Rocklatan and Aerie’s clinical-stage pipeline products. Tori received both her B.A. and M.S. degrees from UNC-Chapel Hill and resides in Raleigh, NC with her husband and two children.

Barbara Arnold, MD

Dr. Barbara Arnold is Clinical Professor of Ophthalmology at UC Davis, in Sacramento, CA where in addition to serving on the volunteer faculty, she is in full time private practice. She is a past president of WIO and the founder of the Summer Symposium, beginning in 1998. She loves sharing her passion for painting and received the inaugural Compassionate Service Award from the California Medical Association in recognition of her efforts in teaching watercolor painting to students with visual disabilities (legally blind). She has been teaching painting classes at the Crocker Art Museum since 2012. Barbara encourages others to take up painting and explore the spontaneity of expression.

Penny Asbell, MD

Penny Asbell is the Barrett G. Haik Endowed Chair, Department of Ophthalmology and Professor of Ophthalmology in the College of Medicine at the UTHSC. Her research areas of interest focus on pharmaceuticals, devices and surgical procedures, including treatments for dry eyes, ocular herpes, corneal infections, Excimer laser surgery, and cross-linking. Dr. Asbell has received research funding from the NIH/NEI, RPB, Fight for Sight, and many investigator-initiated studies funded by industry. She has been the PI for over 100 clinical trials, including HEDS study, PERK study on refractive surgery and DREAM on dry eye. Dr. Asbell is a frequent lecturer and invited speaker at vision-related conferences around the world.

Jeannette Bankes

Jeannette Bankes is the President and General Manager of the Global Surgical Franchise at Alcon. Jeannette’s responsibilities include strategic leadership and oversight to product development, portfolio management and commercialization of products that support the global surgical ophthalmology business. With over 28 years in the healthcare space, Jeannette has contributed to numerous technology advancements. Prior to joining Alcon, she was at Boston Scientific for 15 years with leadership responsibilities across multiple divisions and functions (Interventional Cardiology, Structural Heart, Cardiac Rhythm & Management, Urology and Peripheral). Jeannette also worked for Merck for 12 years.

Patti Barkey, COE

As Chief Executive Officer at Bowden Eye & Associates, Patti Barkey, COE is responsible for operational management and corporate administration of the organization. Patti was instrumental in the development of Bowden Eye & Associates With over 43 years of experience in the ophthalmic field she has held multiple positions ranging from clinical, surgical, operations, research, finance, and management. She is responsible for launching the Eye
Participant Biographies

Surgery Center of North Florida and two Bowden Eye satellite locations to serve the patients of Jacksonville, FL. Bowden Eye prides itself on being one of the most innovative practices in the country. She is the VP-ASOA, Administrative Program Chair for Hawaiian Eye.

**YOLANDE BARNARD**

Yolande is a Pharmaceutical Sector veteran, starting her career as Medical Sales Rep. directly out of business school. She has had numerous prominent roles both Domestic and International within the commercial and corporate pharmaceutical spectrum. Yolande joined Bausch Health companies in 2017, her current role is VP & General Manager, B + L Pharmaceuticals in the US. In her free time, Yolande enjoys spending time with her family, husband Werner and twin girls Elizabeth and Lorraine. Yolande serves on the board of the Mountain Lakes Swim & Dive Team and is a qualified USA Swim Official. If not next to the pool supporting her girls, Yolande also enjoys scuba diving, swimming and nature walks.

**CAROLINE BAUMAL, MD, FASRS**

Caroline Baumal, MD is a Professor of Ophthalmology at New England Eye Center, Tufts Medical Center in Boston, MA. She specializes in medical and surgical treatment of Vitreoretinal disorders. Her research interests include novel retinal imaging and drug development. Her clinical interests include macular degeneration, diabetic retinopathy, complex Vitreoretinal surgery, and retinopathy of prematurity (ROP). She has authored over 120 peer review publications, 25 book chapters and edited a book on Treatment of Diabetic Retinopathy. She received the Crystal Apple and Senior Honor Awards from the ASRS, the Senior Achievement Award from the AAO and the Donald Gass Award from the FOS.

**SAHAR BEDROOD, MD, PHD**

Sahar Bedrood, MD, PhD, is a glaucoma and cataract specialist based out of Pasadena, California. She received her undergraduate degree in biochemistry at UCLA and completed a combined MD/PhD program at the Keck School of Medicine of USC. She finished her residency in ophthalmology at the Doheny/USC Roski Eye Institute in Los Angeles, CA. She then completed her fellowship in glaucoma as a Society of Heed Fellow at the Wilmer Eye Institute at Johns Hopkins University. She went on to become an Assistant Professor at the USC Roski Eye Institute. She currently is in private practice in Los Angeles, California.

**AUDINA BERROCAL, MD**

Audina “Nina” Berrocal, MD holds the rank of Professor of Clinical Ophthalmology. She also serves as Director of the Pediatric Retina service at Bascom Palmer Eye Institute and Jackson Memorial Hospital and Vitreoretinal fellowship director. Dr. Berrocal is internationally recognized for her approach to pediatric retinal diseases. As a pediatric retina specialist and Director of Pediatric Retina and Retinopathy of Prematurity Service, she has extensive clinical, surgical and research experience in the diagnosis and treatment of ROP in this population. She has performed extensive basic and clinical research studies in ROP and has co-authored over 70 peer-reviewed papers in these areas.

**JESSE BERRY, MD**

Jesse L. Berry, MD is an Associate Professor Ophthalmology, Clinical Scholar at the University of Southern California (USC). She serves as the Associate Director of Ocular Oncology at the USC Roski Eye Institute and Children’s Hospital Los Angeles (CHLA) and Associate Division Head for the Vision Center. She received her undergraduate and medical degree from Harvard University. Following her residency at USC, she then completed a fellowship in ocular oncology.
Participant Biographies

At CHLA and USC, Dr. Berry is the founder of Women in Ocular Oncology and was honored to chair this WIO meeting. Her clinical expertise focuses on retinoblastoma and uveal melanoma. Her research endeavors are supported by the NCI.

**LAUREN BLIEDEN, MD**
Dr. Blieden is an Associate Professor and Vice Chair of Education at the Cullen Eye Institute, Baylor College of Medicine in Houston, TX. She completed her residency at Baylor and went on to complete fellowship in glaucoma at Bascom Palmer Eye Institute. Her clinical interests are surgical treatment of glaucoma in adults and children. In addition to her busy adult glaucoma practice, she has established a dedicated Pediatric Glaucoma Service at Texas Childrens Hospital.

**CARLA BOURNE, MD**
Dr. Carla Bourne completed Ophthalmology Residency and Medical School at Howard University College of Medicine and Glaucoma Fellowship at Ophthalmic Consultants of Boston/Tufts Medical Center. She currently staffs residents and fellows at James A. Haley Veterans’ Hospital and University of South Florida in Tampa and introduced Minimally Invasive Surgery techniques at the Veterans’ Hospital in Orlando. While on faculty at University of South Florida, she was Principal Investigator for pharmaceutical trials, directed the Ophthalmology Medical Student Clerkship and was a Collegium Director for their Career Advising program.

**NINITA BROWN, MD, PHD**
After earning her Bachelor of Science degree in mathematics at Spelman College, Dr. Brown earned a Bachelor of Science degree in electrical engineering at Georgia Tech. Her Medical Doctorate is from Duke University. While at Duke, she also completed a Doctorate of Philosophy (PhD) in biomedical engineering. Dr. Brown completed her internship at Santa Clara Valley Medical Center, the county hospital affiliate of Stanford University. She then completed a residency in Ophthalmology at Howard University, in Washington, DC. She completed a glaucoma fellowship at Duke University. She works in Atlanta for the Thomas Eye Group.

**SUSAN BURDEN, MD**
Susan Burden, MD is a comprehensive ophthalmologist (Associate Professor; Resident Program Director) at Wake Forest University in Winston-Salem, NC. She completed her medical school and ophthalmology residency at the University of Michigan. She served as President of the North Carolina Society of Eye Physicians and Surgeons (2014-2015). She currently is serving as President-Elect of the Women In Ophthalmology.

**CAT BURKAT, MD, FACS**
Cat Burkat, MD FACS is Professor in Ophthalmology and Co-Director of Global Ophthalmology at UW-Madison, and specializes in oculoplastics and cosmetic facial surgery. She is Editor for 2 oculofacial books, has written 90 book chapters, and has leadership roles in Women Professors of Ophthalmology, AAO Minority Mentoring, and senior examiner/mentor for ABO. She is current Program Chair for the ASOPRS Scientific Meetings, has led courses at AAO and Oculofacial Subspecialty Day for over 15 yrs, and is the ASOPRS-WOC Liaison Chair for the ICO/World Ophthalmology Congress. She is AAO EyeWiki Editor-in-Chief and prior Lead Editor, and received both AAO Senior Achievement and Secretariat Awards.

**LARISSA CAMEJO, MD**
Dr. Larissa Camejo is a Board Certified Ophthalmologist who completed Ophthalmology Residency at the University of Pittsburgh followed by Glaucoma Fellowship at same institution. Her career initiated in Academics as Assistant Professor and Director of Bethel Park office at the University of Pittsburgh, position she held...
Participant Biographies

Katrina C. Chin Loy, M.D.
Katrina C. Chin Loy, M.D. is a comprehensive ophthalmologist and the Residency Program Director at Howard University Hospital. She received her B.A. from Barnard College at Columbia University, majoring in Neuroscience and Behavior and minoring in Dance. She later pursued her M.D. at Howard University College of Medicine and chose to stay at Howard for her ophthalmology residency training, after an intern year at University of California Irvine. Dr. Chin Loy is passionate about resident education, wellness, and disparities in healthcare. She currently chairs Howard University Hospital’s Graduate Medical Education Well-being Subcommittee to enhance efforts directed at trainee well-being.

Emily Chew, MD
Emily Chew, a medical retina specialist, is the Director of the Division of Epidemiology and Clinical Applications (DECA) at the National Eye Institute, the National Institutes of Health in Bethesda, Maryland. Her research interest includes designing and conducting clinical trials and epidemiologic studies including the Age-Related Eye Disease Study (AREDS), AREDS2, the Actions to Control Cardiovascular Risk in Diabetes (ACCORD) Eye Study, and others. She studied the detection and progression of age-related macular degeneration using artificial intelligence/deep learning. She co-chairs ARVO’s women’s leadership development program. She is the editor-in-chief for Ophthalmology Science.

Kathryn Colby, MD, PhD
Kathryn Colby, MD, PhD, an internationally renowned academic corneal specialist, has pioneered novel, non-transplant treatments for Fuchs dystrophy. After two decades at Harvard Medical School, and 5 years as Department Chair at UChicago, Dr. Colby recently joined NYU as the Elisabeth J. Cohen Professor and Department Chair. Dr. Colby is the president of the Cornea Society and serves on numerous Boards of Directors. A passionate advocate for women in ophthalmology, Dr. Colby has received numerous awards, including the 2020 Bernice Z. Brown Award from WIO. She has published over 100 peer-reviewed articles, multiple book chapters and 7 books, including the only textbook on pediatric cornea.

Nataliya Danylkova, MD, MBA
Dr. Danylkova is a comprehensive ophthalmologist and a Division Chair at Mankato Clinic, MN. After receiving her medical degree and finishing an ophthalmology residency from Ternopil Medical Academy, Ukraine, she completed an ophthalmology residency at Northwestern University, Chicago. She is the President-elect of the Minnesota Academy of...
Participant Biographies

Dr. Lauren A. Dalvin is an Ocular Oncologist and Associate Professor of Ophthalmology at Mayo Clinic, Rochester, MN. As a Mayo Foundation Scholar and a Heed Fellow, she completed a 2-year clinical ocular oncology fellowship under Drs. Carol and Jerry Shields at Wills Eye Hospital. Dr. Dalvin is passionate about multidisciplinary, team-based eye cancer care and advancing the field through quality clinical and translational research. She currently serves on the editorial board for the American Academy of Ophthalmology’s EyeNet magazine and the Young Ophthalmologists Committee of the International Society of Ocular Oncology.

Dr. de Alba is professor of Ophthalmology at the University of California in San Francisco where she holds the Creig S. Hoyt Chair in Pediatric Ophthalmology. She currently serves as department vice-chair for diversity, equity and inclusion and Academic Director of the Pediatric Ophthalmology division. Dr. de Alba is highly involved in service activities focused on increasing access to high quality pediatric ophthalmology care, glasses and vision screening. She is the co-founder of the Loving Eyes Foundation, a non-for-profit organization committed to preventing vision loss among children with craniofacial abnormalities by leveraging 3D technology to provide free customized eyewear.

Lynn is the owner of She Blooms Physical Therapy in Wesley Chapel, FL. She is a Doctor of Physical Therapy, earning her Bachelors of Science in 2001 and Doctorate of Physical Therapy in 2010 from the University of St. Augustine for Health Sciences. Her physical therapy private practice focuses on women’s health and pelvic health. Lynn has extensive experience in treatment of abdominal and pelvic floor muscle dysfunctions that often involves bladder and bowel disorders, pelvic pain, sexual pain/dysfunction, pregnancy and postpartum rehab care. She is a wife, mom of three, and lover of Florida’s beaches.

Sophie X. Deng, MD, PhD is a professor, Joan and Jerome Snyder Chair in Cornea Diseases at the Stein Eye Institute, UCLA. Dr. Deng performs complex lamellar keratoplasty, penetrating keratoplasty, and limbal stem cell transplantation. Dr. Deng’s translational research focuses on LSC regulation, deficiency and regeneration. Dr. Deng co-organized the Limbal Stem Cell Deficiency International Working Group to establish the first global consensus on the diagnosis, staging and management of the disease. She is leading a phase I clinical trial on a new treatment that her team developed. Prof. Deng serves on the ARVO Board of Trustees and Board of Directors of the Cornea Society.

Marsheila DeVan is a Communication Specialist with over twenty-five years of training experience. She is the Co-founder of Elite Communications. Her expertise is working within the pharmaceutical and medical industries, concentrating on professional speaker development, interpersonal skills improvement, meeting moderation, media training, and one-to-one coaching.
Participant Biographies

Marsheila holds a Bachelors Degree in Political Science from UCLA and a Masters of Business Administration from UCI with a concentration in Organizational Behavior and Strategic Planning. Her international experience includes teaching to multiple nationalities and specialties around the world.

JIAXI DING, MD

I chose my specialty in Glaucoma for dedication to lifelong care of patients with this chronic and potentially blinding disease. My fellowship was completed at University of Iowa. I perform a wide range of Minimally Invasive Glaucoma Surgery (MIGS) services as well as traditional glaucoma surgeries and cycloablative lasers including micropulse cyclcophotocoagulation (MP-CPC) and endocylcophotocoagulation (ECP). I also offer cataract surgery with advanced technology, such as toric and multifocal intraocular lenses, femtosecond laser, and ORA system. When not at work, I most enjoy time with my family, including two amazing daughters who inspire me to strive for better each day.

SHORYE DURRETT, MD, MPH

Dr. Durrett is an ophthalmologist with a 19-year career at the University of Louisville/VAMC as an active mentor/advocate for medical students, residents, or aspiring students. She understands the key role 'exposure' plays in creating opportunities for future medical success. Her introduction to ophthalmology came through winning the local science fair with her very basic clay-styrofoam 'eye model’ in the eighth grade. That simple, meaningful opportunity paved and still sustains her passionate pursuit to help others achieve 'farsighted' career goals, especially in fields so underrepresented by others from similar backgrounds. Her new role includes Assistant Dean of Student Affairs.

ALISON EARLY, MD

Alison D. Early, MD is a cataract surgeon and comprehensive ophthalmologist at the Cincinnati Eye Institute. She is a 2014 graduate of the University of Cincinnati College of Medicine, and in 2018 completed her ophthalmology residency at The Ohio State University Havener Eye Institute. Dr. Early specializes in medical and surgical treatment of eye disease including cataracts, glaucoma, dry eye, diabetes, macular degeneration, and more. She is pleased to offer advanced technology intraocular lens implants and MIGS. Her professional interests include ergonomics in eye care as well as issues facing women and mothers in the workplace. Dr. Early is married and the mother of two small children.

LAURA ENYEDI, MD

Dr. Enyedi is a Professor of Ophthalmology and Pediatrics at Duke University, where she completed her undergraduate education, residency, and fellowship training in pediatric ophthalmology and strabismus. She is a clinician educator, has been honored as a “Best Doctor,” and trained over 100 residents and over 50 clinical fellows. She is the editor of the Duke Manual of Pediatric Ophthalmology and Strabismus Surgery and is the Pediatric Ophthalmology and Strabismus editor for the AAO’s ONE Network. She has previously served on the WIO board of directors and was awarded the WIO Mentorship award in 2019. She has 3 adult children and enjoys the beach, gardening, yoga, and reading.

SHANIKA ESPARAZ, MD

Shanika Esparaz M.D. is a board-certified Ophthalmologist who is currently in private practice at Northeast Ohio Eye Surgeons. She is a graduate of Northwestern University and Wright State Boonshoft School of Medicine. She completed her Ophthalmology residency and Medical Retina fellowship at Boston University. She started the retina service at her practice. She provides
Participant Biographies

comprehensive care as well and performs cataract surgery. She serves as a clinical associate professor of surgery at NEOMED. She enjoys connecting with her patients in clinic as well as teaching and connecting with young professionals on social media platforms. She is passionate about mothers in medicine.

CHERIE FATHY, MD, MPH

Cherie Fathy is a Cornea fellow at the Wilmer Eye Institute and a 2021 graduate of Wills Eye Hospital. She completed her undergraduate, Master of Public Health, and medical school at Vanderbilt University. She has worked with the UN refugee camps in Jordan to implement text alert systems to increase vaccination rates. She is also passionate about identifying and deconstructing the barriers that female physicians face in medicine. Cherie is a strong proponent of the role that social media can play in creating new connections and sharing new ideas. In her free time, Cherie loves to read, losing her streak on her Peloton, and exploring new cities and places with her husband.

LAURA FINE, MD

Dr. Laura Fine, MD is a cataract and glaucoma specialist at Ophthalmic Consultants of Boston. She currently serves on the Claims and Finance Committees of the Ophthalmic Mutual Insurance Company. She is a Past President of the New England Ophthalmological Society and Co-Founder of Women Ophthalmologists of New England. Dr. Fine is also Past President of the Chandler-Grant Glaucoma Society. She lectures regularly to primary care physicians and to medical students at Harvard Medical School and has served as Co-Editor of The Aging Eye, a Harvard Health Publication.

GLORIA FLEMING, MD

Dr. Gloria P. Fleming is Professor of Clinical Ophthalmology and Vice Chair, Diversity, Inclusion, Equity and Talent, at The Havener Eye Institute at The Ohio State University’s Wexner Medical Center. Subspeciality Fellowship trained in Glaucoma, she has led the initiatives to bring MiGS to Ohio State and integrate into the Glaucoma division. She is annually recognized as one of the “Best Doctors in America” and “Top Doctor in Ophthalmology”. She served on the President and Provost Council on Women, as co-chair for the committee on Recruitment and Retention. She serves on the Women in Medicine & Science Advisory Board. Dr. Fleming is a Fellow of the AAO, and member of the AGS.

REBECCA FLYCKT, MD

Rebecca Flyckt, MD, FACOG is a board-certified OB/GYN with subspecialty board certification in Reproductive Endocrinology and Infertility. Dr. Flyckt is Division Director of Reproductive Endocrinology and Infertility at University Hospitals Cleveland Medical Center in Cleveland, Ohio. Dr. Flyckt’s clinical interests include fertility preservation, IVF and minimally invasive reproductive surgery. She specializes in treating advanced endometriosis, uterine fibroids, and tubal conditions. Dr. Flyckt has published over fifty peer-reviewed scientific articles and has contributed to numerous books.

CAROLE FOOS, CPA

Carole Foos is a partner in OJM Group and a Certified Public Accountant (CPA) offering tax analysis and tax planning services to the firm’s clients. Carole has over 25 years of experience in accounting, tax planning and financial consulting. Carole is a co-author of numerous books for physicians, including Wealth Management Made Simple and newly published Wealth Planning for the Modern Physician: Residency to Retirement. She has also authored numerous articles and presented lectures, webcasts, and podcasts on tax
planning and wealth management. Carole earned a Bachelor of Science in Business Administration from Xavier University where she majored in accounting.

### Nandini Gandhi, MD
Dr. Gandhi has been on the faculty at the UC Davis Eye Center since 2011. She is currently the chief of the pediatric ophthalmology and adult strabismus service and the director of the ophthalmology residency program.

### Reena Garg, MD
Reena A. Garg, MD specializes in the medical, laser, and surgical treatment of glaucoma and cataract. She also serves as the Program Director for the ophthalmology residency program at Washington Hospital Center/Georgetown University. She previously practiced in Atlanta, GA in private practice for 2 years. Prior to that, she served as an Assistant Professor at the New York Eye & Ear Infirmary at the Mount Sinai School of Medicine. Dr. Garg is known for her kindness and compassion. She was awarded the prestigious Humanism in Ophthalmology award during her Chief Residency and given the Top Doctor award by Washingtonian magazine in 2020 and 2021.

### Elena Geraymovych, MD
Originally from Ukraine, Elena Geraymovych received her undergraduate degree from George Mason University and went for medical school at Virginal Commonwealth University. After, she moved to New York City for general surgery internship at Beth Israel Hospital followed by ophthalmology residency at University of Maryland. She continued her training at The Ohio State University with vitreoretinal fellowship. Later, after spending several years teaching and working at University of Texas San Antonio, she is currently a co-owner of a small retina only private practice in Reno, Nevada.

### Adrienne Graves, PhD
Dr. Adrienne Graves is a visual scientist by training and a global industry leader in ophthalmology. Dr. Graves, the former CEO of Santen Inc, currently sits on the following corporate and nonprofit boards: Iveric, Nicox, Surface Ophthalmics, Oxurion, TherOptix, Greenbrook TMS, ASCRS Foundation, Glaucoma Research Foundation, Retina Global, Himalayan Cataract Project, Foundation Fighting Blindness, and the RD Fund. She co-founded OWL and Glaucoma 360. Dr. Graves received an AB from Brown University, a Ph.D. in Psychobiology/Neuroscience from the University of Michigan, and she completed a Postdoctoral Fellowship in Visual Neuroscience at the University of Paris.

### Julia Haller, MD
Julia A. Haller, MD, Ophthalmologist-in-Chief and Tasman Chair at Wills Eye Hospital, is a trailblazing retina surgeon-scientist and leader. Graduate of Princeton and Harvard Medical School, she was named the first female Chief Resident at Wilmer, and later the inaugural Katharine Graham Chair at Hopkins. A member of the National Academy of Medicine with over 400 published scientific articles and book chapters, she has served as President of the Retina Society, ASRS, AUPO, and Women in Medicine Legacy Foundation, and as a trustee of Princeton, the Philadelphia Orchestra, and as Director of Celgene and currently Bristol Myers Squibb. She and her husband John Gottsch, MD have five children.
Participant Biographies

**HONG-UYEN HUA, MD**

Hong-Uyen Hua, MD, is a rising vitreoretinal surgery fellow at the Cleveland Clinic Cole Eye Institute. She completed residency at the USC Roski Eye Institute, where she served as chief resident. A South Florida native and a die-hard double ‘Cane, she completed her undergraduate studies and medical school at the University of Miami, where she also served as the medical school Student Government President. Passionate about service and leadership, Hong-Uyen is thrilled to participate in the WIO Summer Symposium as a speaker and committee member and can’t wait to meet inspiring women leaders in ophthalmology! For fun, she loves to rock climb, hike, powerlift, and dance like no one’s watching!

**YASMIN ISLAM, MD**

Dr. Islam received her undergraduate degree and medical doctorate at the University of Florida in Gainesville, FL. She then completed an internal medicine internship at Massachusetts General Hospital in Boston, MA. She recently finished her ophthalmology residency at the University of Florida, where she was selected as chief resident. She is currently a glaucoma fellow at Bascom Palmer Eye Institute in Palm Beach Gardens, FL.

**RANNA JARAH**

Ranna Jaraha is the Director of New Media at Bryn Mawr Communications (BMC). In her role, she works closely with leading physicians and industry leaders on creating digital programs and hosting events for the eye care community. This year, she cofounded YoungMD Connect, a membership-based mentorship and educational platform for aspiring and young ophthalmologists. She also hosts the weekly news broadcast, EyewireTV. In her free time, Ms. Jaraha enjoys adventure sports, such as skiing, practicing yoga, and finding unique dining experiences through travel.

**SHELLY JAIN, MD**

Shelly Gupta Jain, MD is a full time Glaucoma Specialist at The Ohio State University in Columbus, Ohio. She joined Ohio State in 2011 and serves as the Glaucoma Fellowship Director and Vice Chair of Education. She completed medical school from Northeast Ohio Medical University in 2006, Ophthalmology residency at The University of Alabama at Birmingham in 2010, and a Glaucoma Fellowship at the Wills Eye Institute in Philadelphia in 2011. She has a deep sense of gratitude to her patients, co-workers and mentors. She is supported by her husband and 3 children.

**LESLIE JONES, MD**

Leslie S. Jones, M.D. is Associate Professor and Chair of the Howard University Department of Ophthalmology. She directs the Glaucoma Service for the department and is a glaucoma consultant for the Uveitis Section of the National Eye Institute. Dr. Jones completed her medical degree and residency in ophthalmology at Howard University, followed by a fellowship in glaucoma at Wills Eye Hospital. She is committed to public health education and early detection of glaucomatous optic neuropathy. Dr. Jones is a fourteen-year veteran residency program director and her paramount career commitment has been to resident education and the development of future ophthalmologists.

**CHRISTINE KAY, MD**

Christine Kay is a VR surgeon at Vitreoretinal Associates in Gainesville, FL. During her fellowship at University of Iowa, she developed an interest in inherited retinal disease and was awarded a 5 year Foundation Fighting Blindness Career Development Award. She has a large IRD patient population, with over 700 genotyped patients in her clinical database. She is PI and surgeon in multiple gene therapy trials, including trials sponsored by AGTC, MeiraGTx, Biogen, RegenxBio, Gyroscope, as well as IRD trials sponsored Foundation Fighting Blindness, Iveric Bio, ProQR and Alkeus.
Participant Biographies

She is lead faculty annual at AAO on a gene therapy update course, and a member of Macula Society and Retina Society.

**SUMITRA KHANDELWAL, MD**

Sumitra S. Khandelwal MD is an Associate Professor at the Cullen Eye Institute, Baylor College of Medicine where she specializes in cornea, cataract and refractive surgery. She also serves as the Medical Director for the Lions Eye Bank of Texas. She completed her ophthalmology residency at Emory University in Atlanta followed by a one-year fellowship at Minnesota Eye Consultants (Lindstrom fellowship). She is the chair if the ASCRS Complex Cataract Subcommittee and serves on the Young Eye Surgeon Committee and Cataract Committee. Her clinical and research interests including optimization of cornea and cataract surgery.

**KATE KLINE, BA**

Ms. Kline has more than 20 years’ experience in pharmaceutical, medical device sales, marketing and managed markets. She joined Kala Pharmaceuticals in 2018 to build the company’s ophthalmology commercial structure and oversaw the launch of 2 Ophthalmic Products. Prior to Kala, she held roles of increasing responsibility at Bausch and Lomb, including Vice President, Marketing, Ophthalmology and Women’s Health leading strategic direction for the anti-inflammatory franchise. She previously held managed markets and marketing roles at Allergan Pharmaceuticals. Ms. Kline holds a BA in Communications from Temple University.

**ANDREA KOSSLER, MD, FACS**

Andrea Lora Kossler, MD, FACS, is Assistant Professor of Ophthalmology at Stanford University School of Medicine and Director of the Oculofacial Plastic, Reconstructive Surgery and Orbital Oncology Service at the Byers Eye Institute at Stanford. Andrea specializes in aesthetic oculofacial surgery, thyroid eye disease and orbital oncology. Dr. Kossler is Co-Director of the Stanford Multidisciplinary Thyroid Eye Disease Center and Director of the Stanford Aesthetic Eye Surgery Center. Dr. Kossler’s research interests include the proteomic evaluation of the ocular surface, modulation of neural reflexes via neurotization and neurostimulation and evaluating targeted therapies for cutaneous and orbital malignancy.

**MICHELLE KRON-GRAY, MD, PHD**

Dr. Kron-Gray is a comprehensive ophthalmologist and cataract surgeon at the Wheaton Eye Clinic in Wheaton, IL. She has been in private practice since 2017. She received her Doctor of Medicine and Doctor of Philosophy degrees at the University of Michigan through the Medical Scientist Training Program. She then completed residency, followed by an additional chief year, at the W.K. Kellogg Eye Center in Ann Arbor, MI. She is married and has 2 young children. In her spare time, she loves working out, watching her kids’ softball and soccer games, and playing the violin with her daughter.

**JAYA KUMAR, MD**

Dr. Jaya B. Kumar is a board-certified ophthalmologist and fellowship-trained vitreoretinal surgeon at Florida Retina Institute. She practices in 5 locations across the central Florida area. She graduated from Saint Louis University with an Honors Bachelor of Science degree and a Doctorate of Medicine. Dr. Kumar completed ophthalmology residency at Duke University and fellowship in vitreoretinal surgery at Cleveland Clinic Foundation. Dr. Kumar has authored several peer-reviewed publications and
Participant Biographies

KATERINA KURTEEVA, MD

Katerina Kurteeva, MD started her own practice in 2020 after her employed position was eliminated by the Private Equity owners at the onset of the pandemic. After working for thirteen years for “THE MAN”, she found liberation and fulfillment in running her own practice. She built her own brand with social media presence and grew an aesthetic boutique on the foundation of the comprehensive ophthalmology clinic. As she learned about the start up of the clinical medicine business through school of hard knocks, the idea of the lecture on "DYI: Ophthalmology practice start up your way!" took shape. She is here to share her knowledge with anyone looking to steer her own ship in medicine.

OLIVIA LEE, MD

Dr. Olivia L. Lee is Associate Professor of Ophthalmology at UC Irvine and specializes in cornea and uveitis. Dr. Lee received her medical degree from Baylor College of Medicine, followed by a residency in ophthalmology from the New York Eye & Ear Infirmary, where she also completed a fellowship in uveitis and ocular immunology. She completed a fellowship in cornea, external disease and refractive surgery at the UCLA Stein Eye Institute. Before joining UCI, she served as cornea fellowship director at the Doheny Eye Center UCLA. Dr. Lee’s research focuses on the use of anterior segment imaging to diagnose and stage inflammatory ocular surface diseases.

JANICE LAW, MD

Dr. Janice Law completed her ophthalmology training at Kresge Eye Institute in Detroit and served as chief resident. After her Vitreo-Retinal surgery fellowship at Vanderbilt Eye Institute, she joined the faculty and served as Associate Residency Director and now Director of Medical Student Education. She is a 3-time recipient of the VEI Bridge Award given to outstanding faculty educators. Her research focus is curriculum design and skills assessment. She is active in her state society promoting advocacy and safety for patients. Dr. Law is a graduate of the AAO Leadership Development Program and is the AAO Chair of the Young Ophthalmologists Committee. She is the mother of two boys.

MORAN LEVIN, MD

Dr. Moran (Roni) Levin is an Assistant Professor of Ophthalmology and Pediatrics at the University of Maryland School of Medicine. Dr. Levin has a passion for medical education. She serves as the Director of Medical Student Education in Ophthalmology, a member of the University of Maryland School of Medicine Curriculum Committee, and as the faculty co-advisor for the Gold Humanism Honor Society. She mentors and supports medical students as a part of Women in Medicine. She is member of the American Academy of Ophthalmology Digital Medical Education Committee, working with educators across the country to develop innovative educational materials.

JENNIFER LOH, MD

Jennifer Loh, MD is a board certified ophthalmologist practicing in Miami, Florida with a focus on cataract and refractive surgery. She is founder and medical director of her practice, Loh Ophthalmology Associates and serves on the board for Eye Physicians of Florida. Dr. Loh is also a clinical faculty member for the newly accredited ACGME Larkin Hospital Ophthalmology Residency program. She is also currently a co-host and moderator of the newly created “Rising Stars in Ophthalmology”, which is an international monthly webinar.
Participant Biographies

featuring case based presentations by select ophthalmologists to a panel of renowned peers.

**MARK MANNIS, MD, FACS**

Dr. Mark J. Mannis is Professor and Chair of the Department of Ophthalmology & Vision Science at the University of California, Davis. He also serves as Medical Director of Sierra Donor Services in Sacramento, California. He completed his ophthalmology residency training at Washington University in St. Louis and fellowship in Cornea and External disease at the University of Iowa. His primary research includes studies in the development of new anti-infective agents, corneal transplantation, and prosthokeratoplasty. He is the author of five books, over 200 publications and has a busy referral practice as a corneal surgeon in Sacramento, CA.

**WANDA MARTINEZ, MD, PHD**

Dr. Martinez specializes in uveitis, medical retina and cataract surgery, with a focus on residency education. After undergraduate studies at the U of Puerto Rico, she moved to the Midwest receiving her MD/PhD, ophthalmology residency and uveitis fellowship. Prior academic achievements include Director of Med Student Education for Ophthalmology, chair of the Diversity Committee, and representative to the Faculty Council for the Medical College of Wisconsin. Seeking warmer climates, she is now the assistant chief of Ophthalmology at the VA Medical Center in Gainesville, FL. She has won Teacher of the Year three times and is actively involved with ABO.

**TOVA MANNIS, MD**

Dr. Tova Mannis is a comprehensive ophthalmologist practicing at Kaiser Permanente in Oakland, California. She received her undergraduate degree in Sociology and Spanish at The George Washington University. After completing a post-baccalaureate pre-medical program, she earned her medical degree from the University of California, Davis School of Medicine. She completed her residency in ophthalmology at Los Angeles County Hospital and the USC Eye institute where she was chief resident. After a fellowship in cornea and external disease at the Proctor Institute (University of California, San Francisco), she began her practice in comprehensive ophthalmology.

**PRIYA MATHEWS, MD, MPH**

Dr. Mathews is a cornea, cataract, and refractive specialist at Florida Eye Specialists and Cataract Institute in Tampa, Florida. She earned her Medical Degree and Master’s in Public Health at Johns Hopkins University. She completed her Ophthalmology Residency at Columbia University Medical Center, and Cornea, Refractive Surgery, and External Diseases Fellowship at Wilmer Eye Institute, Johns Hopkins. Dr. Mathews has been practicing yoga for the past 12 years. She completed her yoga teacher training at MindBodySoul Yoga Studio in New York City in 2018 and is a Registered Yoga Teacher recognized by the Yoga Alliance Foundation.

**CYNTHIA MATOSSIAN, MD, FACS**

Cynthia Matossian, MD, FACS, is the founder and medical director of Matossian Eye Associates, a practice with 3 offices in Pennsylvania and New Jersey. She is a consultant to numerous pharmaceutical and medical device companies and is the President of the American College of Eye Surgeons, the NY IOL Implant Society, and Women in Ophthalmology. She serves on multiple editorial boards, has published numerous articles, and received the prestigious Ophthalmic World Leaders Visionary Award and was included...

MAREZ MEGALLA, MD
Dr Marez Megalla is currently completing her Vitreoretinal Surgical Fellowship at Yale University, where she also completed her ophthalmology residency. A Jersey native, she obtained her Doctor of Medicine from Rutgers Robert Wood Johnson Medical School as part of a seven-year combined BA/MD program. Marez was proud to serve as the Yale University AAO Advocacy Ambassador in 2018 and is currently serving as the Connecticut Society of Eye Physicians Resident and Fellow Representative, a post she has held since 2019. She is honored to be chosen as the WIO Advocacy Ambassador for 2021.

PREEYA MEHTA, BA
Preeya Mehta is currently a medical student at the Keck School of Medicine of USC in Los Angeles. She received her undergraduate degree in Economics from University of California, Los Angeles, and spent a year after graduation working for a research corporation, where she learned the role of meta-analysis in business decisions. Her research interests include various topics in Oculoplastics including factors affecting surgical outcomes and neurotoxin efficacy, telemedicine, and EMR tools. She is currently pursuing a research year with Dr. Zhang-Nunes, an Oculofacial Plastic Surgeon at USC, to study the rapidly growing role of imaging within the field.

ALEXA MONTESINOS, MBA
Alexa Montesinos is a Senior Product Manager at Dompé working on the Field Marketing team. She received her Master’s in Business Administration from Nova Southeastern University and a Certificate of Business Analytics at the prestigious Warton School of Business. She is highly attuned to organizational ideals and strives to balance a spirit of fun and positivity with innovative strategy. A strong believer in women empowerment, her goal is to pave the way for more women to grab a seat at the table.

SUDHA NALLASAMY, MD
Sudha Nallasamy, MD specializes in Pediatric Ophthalmology & Adult Strabismus at CHLA. She is Director of the USC Ophthalmology Resident Rotation in Pediatric Ophthalmology and does the majority of the resident surgical teaching in strabismus including a regular cadaver lab. She has also been working to develop a “bingeworthy” strabismus educational series to garner interest in the field and enhance the educational experience. In addition, she is pioneering the use of real-time telemedicine in consultations between providers. She hopes that eventually this work will improve access to specialized ophthalmic care for children across the world.

CHRISTINE NELSON, MD

Christine Nelson MD FACS
Bartley R Frueh And Frueh Family
Professorship in Eye Plastic and
Orbital Surgery, Ophthalmology
and Visual Sciences Professor, Eye
Plastic Surgery Chief at Kellogg Eye
Center for Michigan Medicine. As
Section Chief I direct a large referral
practice with five orbital surgeons.
I serve as the ASOPRS accredited
fellowship director for our two-year
post-residency training. For the past
six years I have participated as the Co-Director for the Kellogg
Eye Center for International Ophthalmology and worked
primarily in Ethiopia to establish a department residency
program and now fellowships. I also mentor fellows, residents,
medical and undergraduate students.

JAMES O’CONNOR

Jim has spent 17 years in
ophthalmology. At ZEISS, he
cultivates a large, industry-shaping
network of Key Opinion Leaders
from across the globe while
managing the company’s Strategic
Advisors program. Additionally,
he plays active roles in ZEISS’s
strategic expansion in Refractive
and Cataract Surgery as well as the
launch of ZEISS Medical Ecosystem.
Prior to ZEISS, Jim served as Vice
President of Marketing for Cassini. His most important role is
father to Wynnie (6), Evangeline (4) and Jocelyn (10 months).
Their evening golf rounds can often be followed via social
media. Jim serves as a Committee Member for Make-A-Wish
Philadelphia, Delaware and Susquehanna Valley.

ANGELINE NGUYEN, MD

I got introduced to WIO during my
2nd year of residency. My first WIO
conference took me completely
by surprise. For the first time as a
physician-in-training, I realized that
the discussion of women’s issues
is not only acceptable, but that it
should be encouraged. I am proud
to have since started a tradition of
residents from my program now
participating in this conference
and joining this community. I am
currently a pediatric ophthalmologist and adult strabismologist
at the Children’s Hospital Los Angeles, University of Southern
California. I hope to continue encouraging women to join this
organization to strengthen one another in our shared journeys
as women, ophthalmologists, and more.

LISA NIJM, MD, JD

Dr. Lisa Nijm is the founder of
Warrenville Eyecare & LASIK, a
licensed attorney, an innovator
& asst clinical prof at UIC. She
has been intimately involved with
the growth, development and
strategic planning of WIO- from
Summer Symposium Chair (2017) to
President (2018-2019) to WIO’s first
CEO (2020-). Dr. Nijm also mentors
physicians through MDNegotiation.
com, has taught over 2500
ophthalmologists preparing for their boards & advises leading
medical device and pharma companies. Passionate about
helping young ophthalmologists as they start practice, she
created www.RealWorldOphthalmology.com and is hosting a
free virtual meeting this fall entitled “Top Ten Things I Wish I
Knew Sooner.”

CAMILLE PALMA, MD

Dr Camille V Palma graduated from
Stanford University with a BA in
psychology. She earned an MD from
Baylor College of Medicine, then
completed ophthalmology residency
at Case Western Reserve University
and vitreoretinal surgery fellowship
at Northwestern University. She
currently works closely with
ophthalmology residents and fellows
at Cook County Stroger Hospital.
Dr Palma is a certified 200-hour
trained yoga instructor and practices yoga regularly. She has
Participant Biographies

Regine Pappas, MD

Dr. Pappas is a Board-Certified Ophthalmologist-Eye Surgeon and Fellowship trained Glaucoma Specialist. She has been in private practice in Melbourne Florida since 2000. She is the founder and President of Pinnacle Eye Center. She graduated from University of Cincinnati med school and completed residency in ophthalmology at HUH in Washington DC. She completed a one-year ophthalmology fellowship program in glaucoma at the University of Maryland. Dr. Pappas is serving as our WIO President. She is married for 38 years to Costas Pappas, who is a co-founder and CFO of the practice. Her son is her associate in the practice. Her other son is a business lawyer in NYC. She is a grandmother of 2.

Keshini Parbhoo, MD

Keshini Parbhoo, MD is a board certified Oculofacial Plastic Surgeon that has been practicing in Central Florida since 2010. She serves as volunteer faculty at the University of Central Florida College of Medicine. Dr. Parbhoo performs reconstructive as well as cosmetic surgical procedures. She believes that nonsurgical procedures are important to help maintain a rejuvenated appearance. She performs injectable full facial rejuvenation procedures and also provides light, laser and energy based procedures. Dr. Parbhoo believes that each person is unique and likes to have a collaborative approach in developing a treatment plan that is often a journey in achieving natural appearing results.

Purnima Patel, MD

Dr. Patel is the founder and CEO of Ophthalmology and Retina Associates of Georgia in Atlanta. She is a cataract surgeon and a fellowship trained medical retina and uveitis specialist. She was previously Associate Professor of Ophthalmology at the Atlanta VA Medical Center and Emory University School of Medicine where she served as chair of Diversity, Equity, and Inclusion for her department. Dr. Patel currently serves on the Board of Women in Ophthalmology as Treasurer. She was a previous program chair for the WIO Summer Meeting in 2019. She has been very involved with the AAO currently serving as Editor-in-chief of ONE Network. She is a candidate for the Board of Trustees for the AAO.

Kara Pepper, MD

Dr. Kara Pepper is a practicing primary care Internist and Certified Life Coach in Atlanta, GA. Dr. Pepper rebuilt her life and career after burnout, and now supports high achieving women love the life they work so hard to create. She provides one on one and group coaching, leads retreats, and speaks on topics surrounding burnout, perfectionism, impostor syndrome, and wellness and career transition.

Claudia Perez Straziota, MD

Claudia Perez-Straziota, MD practices advanced endothelial keratooplasties, keratoconus management and complicated cataract extractions and premium IOLs at The Cole Eye Institute in The Cleveland Clinic. Originally from Caracas, Venezuela, where she completed Medical School she then completed Ophthalmology Residency and Fellowship in Cornea, External Disease and Refractive Surgery at Emory University in Atlanta, Georgia. Dr. Perez Straziota is a reviewer for multiple national and international peer reviewed journals. She also has numerous peer reviewed publications and book chapters, as well as more than 20 presentations in National and International Ophthalmology conferences.
Participant Biographies

MICHELLE PINEDA, MBA

Michelle Pineda is a Risk Manager who joined OMIC in January 2014. She holds a Master's Degree in Business Administration (MBA) from St. Mary’s College in Moraga, CA and a Bachelor of Arts (BA) in English Literature from California State University, East Bay. Michelle’s background includes 8+ years in professional liability for The Doctors’ Company (TDC) in Claims and Sales.

KAREN QIANG, BS

Karen Qiang is a current fourth year medical student at the Yale School of Medicine. Born in China, raised in Canada, and settled in Houston, she developed a fondness for Tim Hortons and Cajun crawfish before completing a bachelor’s of science in Biochemistry and Cell Biology at Rice University. She now looks forward to applying for ophthalmology residency this cycle. When not working on academics, service, or other passion projects, she enjoys caring for her two dogs and less successfully tending to her collection of plants.

ALEKSANDRA RACHITSKAYA, MD

Aleksandra V. Rachitskaya is an Assistant Professor in the Department of Ophthalmology at the Bascom Palmer Eye Institute in Miami, Florida, as the Chief Resident and Director of Ocular Trauma.

VANDANA REDDY, MD

Vandana C. Reddy MD is the Founder & CEO of Northeast Georgia Ophthalmology. She attended Wellesley College, an all-women’s college near Boston, Massachusetts and earned a degree in Neuroscience with honors. She earned her medical degree from the Medical College of Georgia with AOA honors and completed her ophthalmology training at the Mayo Clinic in Rochester, Minnesota. She then went on to complete a subspecialty surgical fellowship in Cornea, External Disease and Cataract, Refractive Surgery at the University of Michigan, Kellogg Eye Center in Ann Arbor, Michigan.

LINDSAY RHODES, MD, MSPH

As an associate professor of ophthalmology at the University of Alabama at Birmingham, Dr. Rhodes is a federally funded clinician-scientist subspecializing in glaucoma. Her research interests are to explore and develop novel methods of health care delivery, such as telemedicine, to efficiently and effectively increase access to eye care, improve vision outcomes, and prevent blindness. She is currently leading a study funded by the Centers for Disease Control and Prevention to create a telemedicine program to detect eye disease in rural, at-risk Alabamians.

CHERYL ROWE-RENDLEMAN, PHD

Cheryl Rowe-Rendleman, PhD, the managing consultant at OMAR Consulting Group has extensive experience in clinical operations and regulatory development, including her previous positions as Senior Vice President and Head of Regulatory Affairs at Aviceda Therapeutics, Consulting Vice President in charge of Device Strategic Development at Orbit Biomedical, and Clinical Director at Ono Pharma, USA. She has personally directed or designed over 100 clinical trials for companies from the US, EU, and China. Dr Rowe-Rendleman is a member of the Association of Research in Vision and Ophthalmology where she serves on the committees for “Bench to Bedside” and “Diversity, Equity and Inclusion.”
Participant Biographies

**NANCY SABIN, MBA**
A 20-year veteran of Johnson & Johnson, Nancy believes in leveraging the power of J&J to bring transformational innovation to our customers and patients. As a senior leader at J&J Vision, Nancy has driven a bold agenda for the cataract implant business - refreshing the brand strategy, re-imagining the portfolio and launching the first master brand campaign, TECNIS® See More. Nancy earned her bachelor’s degree in engineering at Duke University and her MBA at the Wharton School of Business. She believes in developing teams, coaching young leaders and giving back to the community with a focus on supporting young women in STEM & entrepreneurial ventures.

**STEVEN SANISLO, MD**
Steven Stanislo is a Clinical Professor of Ophthalmology at Stanford University, specializing in vitreoretinal surgery. He did his residency training at Stanford University before fellowship training at Cleveland Clinic.

**ERIN SCHALLHORN POWERS, MBA**
Erin Schallhorn Powers is the Vice President of Global Marketing & Product Strategy at BVI. She has over fifteen years of experience in the ophthalmic industry, holding positions at Zeiss, Alcon, and AMO before joining BVI. Her experiences include establishing strategic business functions, driving ophthalmic and optometric marketing segments, as well as global organizational design. She is the President-Elect and on the Board of Directors of the Ophthalmic World Leaders organization, Co-Chair of the Women of Dartmouth Leadership Committee, and holds an MBA from the Tuck School of Business at Dartmouth and the London Business School.

**NEDA SHAMIE, MD**
Dr. Neda Shamie is a renowned cataract, refractive, and corneal surgeon and partner of the Maloney-Shamie Vision Institute in Los Angeles. She previously was the Medical Director of the Doheny Eye Center in Beverly Hills and an Associate Professor of Ophthalmology at the USC Keck School of Medicine. Dr. Shamie obtained her medical degree from UCSF and completed her residency and fellowship training at UC Irvine. She is recognized as a leader in her field and takes great pride in supporting her colleagues and the next generation to strive for and rise to their highest potential.

**CAROL SHIELDS, MD**
Dr. Carol Shields was trained in ophthalmology at Wills Eye Hospital in Philadelphia, USA and completed fellowship training in ocular oncology and ophthalmic pathology. She is currently Director of the Oncology Service, Wills Eye Hospital, and Professor of Ophthalmology at Thomas Jefferson University in Philadelphia. Each year the Oncology Service manages approximately 500 patients with uveal melanoma, 120 patients with retinoblastoma, and hundreds of other tumors. Dr. Shields has co-authored 11 textbooks and over 1800 published scientific reports. She takes special interest in the management of retinoblastoma, uveal melanoma, conjunctival malignancies and many other intraocular, conjunctival and orbital tumors.

**ERIN SHRIVER, MD, FACS**
Erin Shriver, MD, FACS is a Clinical Professor and the Jim O’Brien Gross and Donnita Gross Professor in Ophthalmology at the University of Iowa Department of Ophthalmology and Visual Sciences. She is actively involved in clinical practice, teaching, research, and advocacy. Dr. Shriver is Immediate Past President of WIO, chaired the Summer Symposium in 2013, and has served on the Board of Directors since 2014. She is also Immediate Past President of the Iowa
Participant Biographies

JENNIFER SMITH
Jennifer is the Director of Strategic Communications, Anterior Segment at Allergan, an AbbVie Company. Jennifer joined Allergan in 2006 and has nearly 20 years of experience in various leadership roles within the industry. Her current areas of focus include KOL relations, strategic partnerships, and peer-to-peer strategies in mature and market-creating franchises. Known for her forward-looking approach, Jennifer builds trust by translating insights into effective business strategies tailored around patients’ needs. She’s passionate in developing others towards success and believes the key is self-empowerment to step out of our comfort zone.

PRIYANKA SOOD, MD
Dr. Sood is an assistant professor of ophthalmology at Emory University and serves as the chief of service at Emory Midtown Hospital in Atlanta. She is a cornea, cataract and refractive specialist. Dr. Sood received her undergraduate and medical school degrees from Northwestern University through the 7 year combined Honors Program in Medical Education. She went on to Emory University where she completed her transitional year and residency training. She stayed on as faculty at the Weill Cornell department of ophthalmology after completing her fellowship before transitioning to private practice in Boston and back to Emory in 2018. She is an active member of AAO, ASCRS and ISRS.

LANA SRUR, MD
Dr. Lana Srur is a board-certified ophthalmologist specializing in refractive cataract surgery and corneal disease. She earned her MD at the University of Florida and completed her residency at Louisiana State University at Shreveport, followed by a fellowship in cornea, refractive, and external disease at Mount Sinai School of Medicine in NY. She has been an Assistant Professor of Clinical Ophthalmology at Bascom Palmer Eye Institute, University of Miami, for 13 years, where she dedicates her time to providing top-quality patient care, as well as her involvement in teaching residents core principles of cataract surgery.

YI NING STRUBE, MD, MS, FRCSC, DABO
Dr. Yi Ning J. Strube is Director of Pediatric Ophthalmology and Adult Strabismus and Associate Professor, Departments of Ophthalmology and Pediatrics, Queen’s University in Kingston, Canada. She completed her Pediatric Ophthalmology fellowship in 2010 with Dr. Ken W. Wright and USC/Children’s Hospital Los Angeles. Some of her interests include innovative strabismus surgical techniques, virtual surgical teaching and strabismus surgical simulation using a 3-D printed silicone eye model she helped develop. She is a member of Canadian Women in Medicine and is committed to promoting wellness and equity in medicine. She is a mom to three active young boys and wife to one very supportive husband.

GRACE SUN, MD
Dr. Grace Sun, an Assistant Professor of Ophthalmology at New York-Presbyterian Hospital/Weill Cornell Medicine (NYPH/WCM), serves as the Residency Program Director at Weill Cornell. She graduated with honors from Stanford University. She later received her M.D. from Weill Medical College of Cornell University and completed her ophthalmology residency at the NYPH/WCM. Dr. Sun holds various leadership positions. She is President of...
the Program Director Council of the Association of University Professors in Ophthalmology, President of the New York State Ophthalmological Society and is President-Elect of Women in Ophthalmology. She lives in NYC with her husband and 3 yo daughter, Maya.

LISA THOMPSON, MD

Dr. Thompson graduated medical school at Rush University in Chicago and completed her residency at Cook County Health. After completing a pediatric ophthalmology fellowship in Los Angeles with Kenneth Wright MD in conjunction with USC and Children's Hospital of Los Angeles, she returned to Chicago to work at Cook County Health and Medical Eye Services. She is currently the residency program director and director of pediatric ophthalmology and strabismus at Cook County Health.

THASARAT SUTABUTR VAJARANANT, MD, MHA

Thasarat Sutabutr Vajaranant, MD, MHA is a Professor of Ophthalmology, Vice-Chair for Strategic Initiatives and the Director of the Glaucoma Service at the Illinois Eye and Ear Infirmary in the Department of Ophthalmology and Visual Science at the University of Illinois at Chicago. She is a physician-scientist, with clinical and research interests in management of complex glaucoma and cataract, glaucoma post corneal transplants, glaucoma epidemiology, the optic nerve and brain aging, and women’s eye health. Dr. Vajaranant has received several prestigious awards, namely the AAO Achievement Award, 3 research awards from the AGS, K12 for Women’s Health, and K23 for the optic nerve aging.

LEJLA VAJZOVIC, MD

Lejla Vajzovic has established an international reputation as a leader in vitreoretinal surgery, research, and teaching. She is an ophthalmologist and vitreoretinal surgeon with expertise in adult and pediatric retinal diseases and surgery. She is interested in cutting edge technologies and recovery of vision in hereditary retinal diseases with retinal implants and stem cell technology. She is a co-director of the Duke Pediatric Retina and Optic Nerve Center, and she directs the Duke Center for Artificial and Regenerative Vision. An influential educator, she organizes and directs several highly successful national and international courses, including the first Advances in Pediatric Retina.

CAMILA VENTURA, MD, PHD

1. Retina and Pediatric Retina Specialist at Altino Ventura Foundation (FAV) and HOPE Eye Hospital, Recife, Brazil
2. Director of Research at FAV, Recife, Brazil
3. Co-Chair of the Young Ophthalmologists Committee of the Pan-American Association of Ophthalmology (PAAO-YO)

SARA WESTER, MD, FACS

Sara Tullis Wester, MD, is a Professor of Clinical Ophthalmology, Bascom Palmer Eye Institute. After working in investment banking at Goldman Sachs, she went to Harvard Medical School and did her Residency and subspecialty ASOPRS fellowship training at Bascom Palmer. Her research focus is on genetic alterations in Thyroid Eye Disease (TED) and treatment for TED as well as orbital adipose stem cells (OASCs) and their applications in ocular and peri-ocular reconstruction. She has authored multiple peer reviewed journal articles on alterations in the OASCs in TED and is involved in several multi-center randomized controlled clinical trials on treatments for TED.
Participant Biographies

**JANEY WIGGS, MD, PHD**

Dr. Wiggs is the Paul Austin Chandler Professor of Ophthalmology at Harvard Medical School and the Vice Chair for Clinical Research, Harvard Department of Ophthalmology. Her research is focused on ocular genetics, with an emphasis on glaucoma. As the PI of the NEIGHBORHOOD consortium she has contributed to the discovery of many genetic risk factors associated with common forms of glaucoma and related quantitative trait. She has been elected to the National Academy of Medicine for her research and achievements in the field of ocular genetics, including the development and implementation of genetic testing for inherited eye disease.

**KIMBERLY WINGES, MD**

Kimberly M. Winges, MD, is Associate Professor of Ophthalmology and Neurology at the Casey Eye Institute/Oregon Health & Science University in Portland, Oregon. She is also the first female Assistant Chief of Surgery at the adjacent VA Hospital, where she practices comprehensive and neuro-ophthalmology. Born in San Francisco, she earned her undergraduate degree at Stanford University, graduated New York Medical College with a Howard Hughes Research fellowship in multiple sclerosis, pursued ophthalmology residency at UC Davis, and completed her clinical fellowship in neuro-ophthalmology at University of Iowa. She is on the Board of Directors for WIO and Vice President of the Oregon Chapter.

**AGNES WONG, MD, PHD, FRCSC**

Dr. Agnes Wong is Professor of Ophthalmology, Neurology, and Psychology at the University of Toronto. She is an active physician and former Ophthalmologist-in-Chief at The Hospital For Sick Children in Toronto. She is also the former Vice Chair of Research in the Department of Ophthalmology at the University of Toronto. Dr. Wong completed chaplaincy training with Roshi Joan Halifax at the Upaya Zen Center, and intensive teacher training in Mindfulness-Based Cognitive Therapy. As a physician-chaplain, Dr. Wong focuses on physician well-being, integrating mindfulness, compassion, reflective practices, and system thinking to promote individual well-being and to improve the healthcare system.

**FASIKI WORETA, MD, MPH**

Fasika A. Woreta, M.D., MPH, is an Assistant Professor of Ophthalmology at the Wilmer Eye Institute. Dr. Woreta received her M.D. degree from the Johns Hopkins University School of Medicine and her M.P.H. degree from the Johns Hopkins Bloomberg School of Public Health. She completed her residency in ophthalmology at the Wilmer Eye Institute and a cornea fellowship in cornea and refractive surgery at the Bascom Palmer Eye Institute. She is currently Director of the Eye Trauma Center and Residency Program Director at Wilmer Eye Institute. Her research interests include ocular trauma, medical education, and quality improvement in healthcare delivery.

**RICH ZAK, MD**

Rich Zak is a vitreo-retinal surgeon in Aurora, Illinois. His passions extend beyond ophthalmology to active physical endeavors including skiing, kayaking, and adventure racing.

Dine Around Networking

Local Restaurants
These are some great spots for local dining and cocktails on Amelia Island and historic downtown Fernandina Beach.

Bob's Steak & Chop House
80 Amelia Village Circle
Closed Sunday & Monday
(904) 432-2201
www.bobs-steakandchop.com
Dinner at Bob's isn't just a meal, it's an experience with a lively atmosphere and simple elegance. Bob's offers prime steaks, chops and seafood served by a friendly and knowledgeable staff. At Bob’s, dinner comes with your choice of potato and our iconic glazed carrot, giving you a great value. Once you experience Bob's special brand of service and food, it won't be long until you're a regular.

Brett’s Waterway Café
1 South Front Street
(904) 261-2660
Dine on creative land or sea dishes served in a casual dining atmosphere. Enjoy the view as you overlook the Fernandina Harbor and marina on the Amelia River. Open for lunch and dinner. Featuring a full bar and extensive wine list.

Burlingame Restaurant
20 S. 5th Street
Closed Sunday
(904) 432-7671
www.burlingamerestaurant.com
Chef Chad’s cuisine is seasonally inspired, modern American food with a twist. He wants our guests to find new excitement in classic dishes and goes to great lengths to deliver with every plate. The made-from-scratch menu is small by design to focus on a handful of exquisite dishes each season. This same made-from-scratch ethic shines through in our craft cocktail offerings.

Ciao Italian Eatery
614 Centre Street
(904) 206-4311
www.ciaoitalianeatery.net
An upscale yet casual, modern setting, wonderful ambiance assures your perfect evening. Join us for dinner or light fare, from our exceptional ultra-thin crust pizza, appetizers, pasta, seafood, and entrees. There is a beautiful full bar, hand crafted cocktails, extensive wine list and Peroni on tap.

Cucina South
4828 1st Coast Hwy #1
Closed Monday
(904) 432-7920
www.cucinasouth.com
An Italian Bistro featuring pasta, pizza, seafood, and wine. “Years of experience culminated with a passion for food, wine and love for people!”

David’s Restaurant

Closed Tuesday
(904) 310-6049
www.ameliaislanddavids.com
David’s is a premier and authentic Steak House & Seafood Restaurant that has been proudly serving Amelia Island area and beyond since 2012. Since then, our mission has been to provide high-quality food for all those that wish to combine an intimate and relaxed ambiance with skillful cooking into one extraordinary dining experience.

España
22 S. 4th Street
(904) 261-7700
www.espanadowntown.net
Specializing in traditional flavors from Spain & Portugal. Choose to dine in our cozy main dining room, enclosed patio dining room or in our lush outdoor garden.

Joe’s 2nd Street Bistro
14 S. 2nd Street
(904) 321-2558
www.joesbistro.com
Located in a restored 1900s home in downtown Fernandina Beach, Florida, Joe’s 2nd Street Bistro features fresh, local seafood, certified angus beef and a unique wine list to fit all occasions. Open since 1998, Joe’s has become a mainstay in Fernandina’s historic district.

Lagniappe (“lan-yap”)
4810 First Coast Hwy
(904) 844-2634
www.lagniappeamelia.com
Inspired by the culture and flavors of New Orleans, Charleston and Savannah, Lagniappe Restaurant combines the traditions of the French Creole with unique twists on Southern culinary staples using only the freshest local ingredients.

LeClos
20 S. 2nd Street
Closed Sunday & Monday
(904) 261-8100
www.leclos.com
Located in Fernandina’s Historic District since 1996, Le Clos serves delicious Provencal dishes by candlelight in a charming, intimate 1906 cottage. The menu items at Le Clos are prepared carefully and presented beautifully with an emphasis on local fresh seafood. The eclectic wine list offers the perfect accompaniment for every menu selection.

Pogo’s Kitchen
1408 Lewis Street
Closed Monday
(904) 432-8483
www.pogoskitchen.com
It isn’t enough to step away from the everyday hustle. You need a place to go, a restaurant built to replenish. Step into southern refinement with a bend, visit us on Amelia Island at POGO’s Kitchen. A bright, breezed eatery tucked away from the main lines, waiting to unpack your day and refill your glass.
